I have found it helpful to learn functional concepts from multiple authors. I've included here some of the best articles on functional programming. I hope they will add to what you have already learned:

- [Functional Programming Principles in JavaScript](#)

- [Functional Light JavaScript](#)

- [Master the JavaScript Interview: What is Function Composition?](#)

- [Curry and Function Composition](#)

- [Functional Programming in JavaScript](#)

- [Discover Functional Programming in JavaScript with this Thorough Introduction](#)

- [How Point-free Composition will Make You a Better Functional Programmer](#)

- [From Imperative to Functional JavaScript](#)
